

Gray Line & COVID-19

As always, safety is our Top Priority! In response to the onset of the Covid19 Pandemic, Gray Line has instituted policies and procedures intended to protect our passengers and employees. These include but are not limited to:

- The CDC recommends...
 - As recommended by the CDC, anyone exhibiting signs of Covid19 (i.e., fever, respiratory distress, etc.) will STAY HOME!
 - We recommend that everyone familiarize themselves with the [CDC guidelines \(https://www.cdc.gov/\)](https://www.cdc.gov/). For the most part, we follow their guidelines.
- People...
 - Our Drivers and staff have been trained in Covid19 safety guidelines.
 - Cleaning and sanitizing instructions for the vehicles and facility.
 - Drivers will use the wall mounted thermometers to record their temperatures as part of the pre-trip procedure. Training will be forthcoming.
 - Drivers will wear masks while on duty and ask that passengers boarding do likewise. As always, Gray Line strives to remain in compliance with all local regulatory guidelines, and masks are currently required within the city of Tucson.
 - For customers, social distancing will be left to the discretion of the passengers and/or the group leader on board. In the office we ask that everyone be considerate and maintain realistic and appropriate distancing.
- Cleaning our vehicles:
 - We use CDC disinfectants approved for safeguarding against the Human Coronavirus.
 - The seats are misted with Maguard 5626, registered under EPA number 10324-214. This is effectively a mix of Hydrogen Peroxide and Peroxyacetic acid. Subsequently, all hard surfaces are wiped down with CDC approved 70% Isopropyl Alcohol disinfectant.
 - We have installed Hand Sanitizer units at the entrance and lavatory of every bus, plus a mounting near the wheelchair lift on those vehicles equipped as such.
 - Finally, the vehicle is fogged with Anasphere Plus, which eliminates 99.99% of all bacteria and viruses on all surfaces. Anasphere Plus is registered under EPA Reg. No. 61178-1 and is friendly to the environment.
 - Each coach has a cleaning and sanitizing log mounted in the stepwell of each bus to give customers confidence in the cleanliness of the vehicle.

We are family owned and operated for 104 years, and in all that time your safety and wellbeing has always been our primary concern- customer or staff! We anticipate saying that for another 104 years!

If you have questions or concerns, don't hesitate to contact us at info@graylinearizona.com or call 800-276-1528 (520-622-8811).

Be Safe!

CEO and President
